

Feed & Water Additives

In collaboration with DCL Nutrition and Animal Health, Lintech is dedicated to the well-being of livestock through nature-inspired solutions. We offer a comprehensive, GRAS (Generally Recognized As Safe) feed and water additive product line crafted with essential oils, plant extracts, vitamins and minerals that are free from antibiotics, catering to both poultry and swine throughout their life cycles. These products are intended to support and foster livestock health, with a particular emphasis on promoting intestinal and respiratory wellness. Moreover, they help harness potential benefits of antioxidants and natural antibacterial components, targeted for the general well-being of your animals.

Phytogenic Products

- Aviteck+** Provides antioxidants to supports the general well-being, especially during heat and transport stress.
- Botamix+** Designed for the respiratory health of poultry and swine. Helps alleviate post-vaccination symptoms. Results are quickly observed and may contribute to lower mortality rates.
- Calteck+** Promotes eggshell quality and supports musculoskeletal integrity in poultry.
- Phyteck-P** Supports intestinal microflora. Promote growth performance and productivity.
- D-Stress** Maintains performance during periods of stress, heat, handling and the first days of life.
- Electro+** Provides electrolytes and vitamins to help maintain hydration and optimize the immune system.

Product Benefits

- Antibiotic free
- No veterinary prescription is required, which means quick intervention on the farm
 - No withdrawal period
 - Water as a delivery mechanism has innate advantages:
 - Sick birds may not eat but will drink
 - Fast assimilation by the intestinal tract
 - Stimulates water intake (taste 24-48h)
 - Can control the time of use
 - Dosage flexibility
- Full portfolio of products for the life cycle of poultry and swine
- All products are GRAS, natural, and based upon various combinations of vitamins, minerals, plant extracts and essential oils
- Certain products may be certified organic

In addition to these high-performance feed and water additives, Lintech carries a number of other products designed to naturally support the growth and health of your livestock.
